SPAT

Sociedade Portuguesa de Artroscopia e Traumatologia Desportiva

Estatuto de Utilidade Pública

Porto, 24 th November 2016

Dear President of AEA,

Dr. Ricardo Cuéllar Gutiérrez

and all AEA's Board,

The Portuguese Arthroscopy and Sports Trauma Society (SPAT) would like to inform that on our last General Assembly hold on the 28 th October, SPAT elected the new board.

The new board, will lead the society for the next 2 upcoming years, and will have as SPAT's President: Henrique Jones, MD.

SPAT's wishes to continue to straighten relationships with AEA and to have a more active role internationally.

SPAT is currently the larger society in this field in Portugal and has got 369 members, and it's still increasing.

We are proud to inform that our next biannual Congress will take place in Funchal, Madeira on the 30th November and 1st December 2017 and will be one of the most important congresses in this domain usually debating current themes with the participation of well-known international and national speakers. We invite AEA to participate and help us promote our meeting, which will be an excellent way to share knowledge between both society members.

We hope to continue engaging in a good and promising relationship.

On behalf of SPAT's Board

Henrique Jones

President of the Portuguese Arthroscopy and Sports Trauma Society
