

38th SICOT Orthopaedic World Congress

30 November - 2 December 2017
Cape Town  South Africa

Preliminary Scientific Programme

(at 3 August 2017)

Message from the SICOT President

Dear Friends and Colleagues,

Greetings from SICOT.

With pleasure, I invite you to participate and contribute to the 38th Orthopaedic World Congress of SICOT in Cape Town, South Africa, from 30 November to 2 December 2017.

SICOT has emerged as the largest and truly international Orthopaedic Society with more than 30,000 Active and Corresponding members from 110 countries around the world. The annual meetings of the Society thus carry the work and innovations in all fields of orthopaedic surgery from all regions of the world. The meeting will be attended by more than 3,000 delegates and this is a golden chance to project your work to a worldwide audience.

The meeting in Cape Town has been richly designed to be academically attractive, composing of plenary lectures, symposia, seminars, guest lectures and free paper sessions. A review of the programme shows that this meeting is poised to be an academic and social extravaganza and a 'not to be missed' event.

Cape Town is also one of the favourite tourist destinations in the world. With excellent pre- and post-congress tour options, it has the potential for a memorable family holiday. So please plan your trip to have your family with you.

On behalf of the SICOT Board of Directors, I welcome you to Cape Town and look forward to seeing you in November.

Best wishes,

S. Rajasekaran

Message from the Scientific Programme Chairman

Dear Friends,

It gives me immense pleasure to welcome all of you to the 38th SICOT Annual Orthopaedic World Congress to be held in Cape Town, South Africa, from 30 November to 2 December 2017.

The SICOT Orthopaedic World Congress has gained significant popularity over the years and has now become a premier international orthopaedic congress with Faculty and delegates participating from all around the world. One of the major strengths of SICOT is the diversity of its membership which leads to a very rich academic programme contributing to its success.

We have a stimulating academic programme planned for the Congress in Cape Town as well. The main focus of the programme is on audience participation and we have therefore included specific sessions on case discussions, video techniques and debates. Over the course of 2½ days, you will be enthused with 41 instructional symposia, 43 free paper sessions, 10 short paper sessions and 3 Plenary lectures from distinguished academic leaders – Prof Oheneba Boachie-Adjei from Ghana, Prof Fares Haddad from the United Kingdom, and Prof Ashok Johari from India.

All the symposia also have an experienced Faculty who are key opinion leaders in their field. In addition, we have 10 symposia delivered by our partner societies. We have also planned educational activities specifically for the trainees on 29 November before the meeting commences: the 7th SICOT Educational Day (Theme: The Hip), the 24th Cooperative Course for Polytrauma Management, and the SICOT Diploma Examination. I am sure that these 3½ days would cater to the academic needs of both the trainee and the practising orthopaedic surgeon.

All in all, I can assure you that you will enjoy your time at the Congress and be stimulated and enriched with excellent educational content and an amazing city to explore. The Congress Scientific Advisory Committee has had a great time putting this programme together for you and we cordially welcome all of you to Cape Town to learn, share your experience, and participate in this exciting scientific meeting.

Very best wishes,

Vikas Khanduja

Message from the Congress President

On behalf of the SICOT Congress Organising Committee, I would like to invite you to the 38th SICOT Orthopaedic World Congress from 30 November to 2 December 2017. Only for the third time on African soil, the meeting will be hosted in Cape Town, South Africa, at the most southern part of the continent.

Cape Town is the gateway to Africa and it was from here that Dr David Livingstone embarked on his explorations of the continent.

The city is a perennial favourite with visitors and locals alike. Overshadowed by the majestic Table Mountain, Cape Town offers spectacular scenery and is a renowned food and wine capital. The New York Times voted Cape Town the world's number one city to visit in 2014 and the UK's Telegraph newspaper recently voted Cape Town as the Best City in the World for the fourth consecutive year. Condé Nast Traveler magazine currently recognises Cape Town as the world's number one food city.

Participants can expect modern infrastructure, a legacy of South Africa's successful hosting of the 2010 FIFA World Cup, and opportunities to explore this compact city and its environs. Very few places offer the variety that Cape Town provides. One can enjoy a full day of the Congress and still have time to watch the sunset over the Atlantic Ocean from the top of Table Mountain. For those wishing to arrive early or extend their visit, Cape Town is directly connected to the Kruger National Park and Botswana for safaris as well as to Victoria Falls.

The academic programme promises to include world standard orthopaedics inclusive of lecture presentations and workshops for the more general orthopaedic surgeons as well as super-specialists. Internationally acclaimed invited speakers will ensure that trainees and experts will be up to date with the latest modern orthopaedic technology and evidence-based medicine.

Welcome to Cape Town!

Best regards,

Doron Frantzen

Theme	The Hip
Date	Wednesday, 29 November 2017
Time	07:45-17:00
Venue	Cape Town International Convention Centre (CTICC)
Fee	EUR 50

Participants must register and pay the registration fee for the 38th SICOT Orthopaedic World Congress to be able to register for the 7th SICOT Educational Day. If you have already registered for the Congress and wish to attend the Educational Day, please send an email to congress@sicot.org.

The needs of orthopaedic residents, fellows and practising orthopaedic surgeons around the world are evolving constantly. At the same time, evidence-based knowledge in orthopaedics is expanding at a rapid rate. Moreover, all the residents around the world need to take exams at some stage in their career to mark completion of training and/or demonstrate competency. Also, practising orthopaedic surgeons do have to undergo some form of appraisal and/or revalidation at regular intervals to demonstrate fitness to practice. In both these scenarios, acquiring and updating knowledge in a short span of time is essential. The SICOT Educational Day was conceived with this purpose in mind.

The aim of this day is to provide a comprehensive review course for the residents and an evidence-based update for the practising surgeons on a specific theme at each SICOT Congress. The format of the day consists of four to six short lectures in each section followed by ample time for case discussions and debates and ample breaks. The first Educational Day was held in Prague with the theme of “The Hip”, and subsequent

to this we have had 5 more of these days at each SICOT Congress and the response has been overwhelming with an excellent feedback. We have trained over 750 surgeons in the past 6 years and completed a whole cycle of the syllabus required to sit the SICOT Diploma Examination.

We commence our cycle again in Cape Town, South Africa, and the theme for this year is “The Hip”. As in the previous years, the day will focus on all the elements of hip surgery right from anatomy and surgical approaches to complex case discussions. Dedicated faculty along with key opinion leaders from around the world will be lecturing on the day. So, if you wish to learn, share, debate and discuss ideas and surgical techniques in an exciting environment with a group of international surgeons in one room, the Educational Day is the place for you. We look forward to seeing you there!

Chairman:

Vikas Khanduja (Cambridge, United Kingdom)

Date	Wednesday, 29 November 2017
Time	08:30-17:00
Venue	Cape Town International Convention Centre (CTICC)
Fee	EUR 50

Participants must register and pay the registration fee for the 38th SICOT Orthopaedic World Congress to be able to register for the 24th Cooperative Course for Polytrauma Management. If you have already registered for the Congress and wish to attend the Course, please send an email to congress@sicot.org.

**Polytrauma
Course**

The idea of this course was initiated by Drs Giannoudis and Pape in 2002 with the first course being held in 2002 in Leeds, United Kingdom. Since then, it has circulated and part of it has also been implemented in the philosophy of the AO.

The organisers feel that the widespread implementation of the ATLS algorithm has tremendously improved the acute treatment of severely injured patients. Following the initial resuscitation phase, controversies and ongoing changes have occurred that are worth reviewing. Therefore, these courses address the issues “Beyond ATLS”.

In cooperation with University Hospital Zurich (Prof Pape), Hannover Medical School (Prof Krettek), University Hospitals in Leeds (Prof Giannoudis) and Pittsburgh University Medical Center (Prof Peitzman), we intend to unite the knowledge of general surgeons, neuro-surgeons, orthopaedic trauma surgeons, intensive care and emergency physicians.

There will be international experts in traumatology sharing their experiences during the course. It will be conducted in English and all participants will receive a certificate.

By partnering with SICOT the registration fee for this year’s course has been reduced to EUR 50. Participants must register and pay the registration fee for the 38th SICOT Orthopaedic World Congress to be able to register for the course.

We hope that you will enrich this course with your participation and indefatigable intention to improve trauma care.

Chairmen:

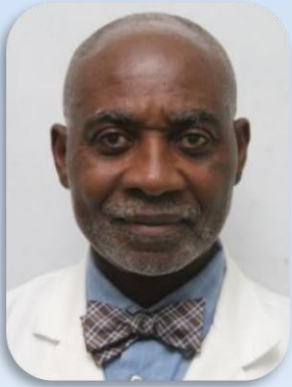

Hans-Christoph Pape (Zurich, Switzerland)
Peter Giannoudis (Leeds, United Kingdom)
A. Peitzman (Pittsburgh, United States)

Organisation:

Roman Pfeifer (Zurich, Switzerland)
M. Teuben (Zurich, Switzerland)

Oheneba Boachie-Adjei

Prof Oheneba Boachie-Adjei is the President and Founder of the Foundation of Orthopedics and Complex Spine (FOCOS) and the CEO of FOCOS Hospital, Ghana. He is also an Emeritus Professor of Orthopaedic Surgery at Weill Cornell Medical College and Chief of the Scoliosis Service at the Hospital for Special Surgery (HSS).

He completed undergraduate studies at Brooklyn College where he received a Bachelor of Science (*summa cum laude*) in 1976. He received his Doctor of Medicine Degree from Columbia University's College of Physicians and Surgeons in 1980, completed an orthopaedic residency at HSS in 1986 and spine deformity fellowship at the Twin Cities Scoliosis Center, Minnesota.

He received the Scoliosis Research Society (SRS) Russell Hibbs Award for Best Clinical Research Paper in 1989, 2002 and 2013. He then received the Humanitarian Award in 2004 by the American Academy of Orthopaedic Surgeons (AAOS) and the Walter P. Blount Service Award in 2006 by the SRS. He was President of the Scoliosis Research Society for 2008-2009. In June 2013, he received the Lifetime Achievement Award from the Hospital for Special Surgery. He was featured on CNN's African Voices documentary Transforming Spine Surgery in Ghana. In 2016; the University of Toledo, Ohio inducted him into their Global Medical Mission Hall of Fame. Earlier this year, he was granted the award for the Individual Philanthropist of the Year (Special Needs) by the Philanthropy Forum Ghana.

Prof Boachie-Adjei has published and lectured extensively on spine surgery, with special emphasis on surgery to correct spine deformity. He is an inventor who holds several patents for devices used in spine surgery.

Fares Haddad

Fares Haddad is Professor of Orthopaedic and Sports Surgery and Divisional Clinical Director of Surgical Specialties at University College London Hospitals (UCLH) and Director of the Institute of Sport, Exercise and Health (ISEH) at University College London. He is also Editor in Chief of the Bone and Joint Journal (formerly JBJS-Br).

Professor Haddad's clinical and research endeavours have centred around hip and knee reconstruction. His interests include joint preservation after trauma and sports injuries, bearing surfaces, implant fixation, periprosthetic infection and outcomes assessment in hip, knee and revision surgery. His broader work also encompasses strategies to preserve and regain musculoskeletal health; he led the musculoskeletal team at the London Olympics 2012, was instrumental in setting up the National Centre for Sport & Exercise Medicine and has recently been awarded International Olympic Committee Centre of Excellence status at ISEH.

He was the gold medallist in the FRCS (Orth) exam and has gained a large number of prizes and prestigious academic awards. He has been an EFORT Travelling Fellow, British Hip Society Travelling Fellow and ABC Travelling Fellow in 2004. He was a Hunterian Professor in 2005. He is a member of the Hip Society, the Knee Society and of the International Hip Society.

He has presented and published widely on key aspects of hip, knee and sports surgery including over 300 peer reviewed publications. He leads a clinical research group with interests in joint preservation after injury, the genetic influences on bone and tendon disease, prosthetic design and performance and outcomes measurement after hip/knee injury, degeneration and surgery. He is Editor in Chief of the 'Bone and Joint Journal', and is on the editorial board of 'The Journal of Arthroplasty', 'Annals of the Royal College of Surgeons' and 'Hospital Medicine'.

Ashok N. Johari

Ashok N. Johari is a Paediatric Orthopaedic and Spine surgeon based in Mumbai.

After a brilliant postgraduate career in orthopaedics, Dr Johari started specialising in paediatric orthopaedics in the early 1980s. He had further exposure in this field in Japan, England, France, United States and the then USSR. Eventually he spearheaded the development of this specialty in India with a leadership position in organising the Paediatric Orthopaedic Society of India (POSI) in 1994 as its Founder Secretary. This society has flourished and has interested many in pursuing paediatric orthopaedics as a career.

Dr Johari was the President of the Paediatric Orthopaedic Society of India (POSI). He has also been President of the Indian Orthopaedic Association (IOA), of the Indian Academy of Cerebral Palsy (IACP), and also the President of the Asia Pacific Knee Society (APKS). He is currently the Vice President and on the Board of Directors of SICOT and is also the Chairman of its Education Council. Dr Johari was the President of the very first SICOT Orthopaedic World Congress held in India in October 2013. He is the President Elect of the Asia Pacific Paediatric Orthopaedic Society (APPOS) and of the Asia Pacific Infection Society (APIS).

He has a number of distinctions, fellowships, awards, papers and publications to his credit including many book chapters. He is Chief Editor for the book series on 'Current Progress in Orthopaedics', Editor in Chief of the prestigious 'Journal of Paediatric Orthopaedics (B)' for over a decade now, and on the Editorial and Reviewer Boards of many other international journals. Dr Johari was awarded the FRCS from the London College and also honoured as a Fellow of the prestigious National Academy of Medical Sciences and as a Hon. Fellow of the Slovak Orthopaedic and Trauma Society.

SICOT Research Awards Presentations

The SICOT Research Awards Programme is a new initiative by the current SICOT President, Prof S. Rajasekaran, and comprises three awards of USD 2,000 each. The winners of these awards will be chosen on scientific merit by the newly formed Research Academy led by Prof Matt Dobbs following review of submitted manuscripts. The winning authors will be presenting their research in this session and the following Awards will be presented.

- 1) The SICOT Clinical Research Award
- 2) The SICOT Basic Science Award
- 3) The SICOT Young Investigator Award

Symposium: Academic Writing

Friday, 1 December – 08:00-10:00

Moderators

Cyril Mauffrey (United States) & Marius Scarlat (France)

Speakers

Fares Haddad (United Kingdom)
Yong Cheng Hu (China)
Gabrielle Schroeder (Germany)
James P. Waddell (Canada)
Vikas Khanduja (United Kingdom)
Cyril Mauffrey (United States)
Marius Scarlat (France)

Course: Reviewers' Course

Friday, 1 December – 10:30-12:00

Moderators

Andreas Mavrogenis (Greece) & Andrew Quaile (United Kingdom)

Speakers

Anil Jain (India)
Cyril Mauffrey (United States)
Hatem Said (Egypt)
Jing Sun (China)
Andreas Mavrogenis (Greece)
Andrew Quaile (United Kingdom)

AO ALLIANCE FOUNDATION

Symposium: Orthopaedics/Trauma in Low-income Countries

Thursday, 30 November – 08:00-10:00

Moderators

Claude Martin Jr. (Switzerland) & Doron Frantzen (South Africa)

Speakers

Richard Gosselin (United States)
Jes Bates (Malawi)
Claude Martin Jr. (Canada/Switzerland)
Nicholas Lubega (Malawi)
Linda Chokocho (Malawi)

AORecon

Symposium: Prevention & Management of Periprosthetic Joint Infection

Thursday, 30 November – 16:00-17:30

Moderators:

Fares Haddad (United Kingdom) & Chris Frey (South Africa)

Speakers

Olivier Borens (Switzerland)
Fares Haddad (United Kingdom)
Jean-Noel Argenson (France)
Chris Frey (South Africa)
Carsten Perka (Germany)

AOTrauma

Symposium: Trauma & Infection

Thursday, 30 November – 14:00-15:30

Moderators

Brian Bernstein (South Africa) & Olivier Borens (Switzerland)

Speakers

Brian Bernstein (South Africa)
Len Marais (South Africa)
Martin McNally (United Kingdom)
Oliver Borens (Switzerland)

APOA – ASIA PACIFIC ORTHOPAEDIC ASSOCIATION (FOOT & ANKLE)

Symposium: The Great Foot & Ankle Debate: Tackling the Biggest Controversies in Foot & Ankle Surgery

Friday, 1 December – 14:00-15:30

Moderators

Gowreeson Thevendran (Singapore), Mark Blackney (Australia), Arvind Puri (Australia) & Syah Bahari (Malaysia)

Speakers

Mark Blackney (Australia)

KNEE

Section Chairman: Francesco Falez

Symposium 1: Total Knee Replacement – Patient Expectations & Surgeons Role; Can Design Improve Outcomes?

Thursday, 30 November – 10:30-12:00

Moderators

Francesco Falez (Italy) & Ponky Firer (South Africa)

Speakers

Ashok Rajagopal (India)
Alberto Belluati (Italy)
Manuj Wadhwa (India)
Maximilian Rudert (Germany)
Ponky Firer (South Africa)
Jacques Caton (France)
Anoop Jhoorani (India)
Mahesh Kulkarni (India)

MEDICOLEGAL

Section Chairman: Andrew Quaile

Symposium: Update in Medicolegal Issues

Saturday, 2 December – 08:00-10:00

Moderator

Andrew Quaile (United Kingdom)

Speakers

Vikas Khanduja (United Kingdom)
Marc Patterson (United Kingdom)
Tony Birrell (South Africa)
Ian Leslie (United Kingdom)
Andrew Quaile (United Kingdom)

MICROSURGERY

Section Chairman: Marko Bumbasirevic

Symposium: Update in Brachial Plexus Injuries

Saturday, 2 December – 08:00-10:00

Moderators

Marko Bumbasirevic (Serbia) & Frederic Schuind (Belgium)

Speakers

Marko Bumbasirevic (Serbia)
Soucacos Panayotis (Greece)
Shanmuganathan Rajasekaran (India)
Uesato Ryoko (Japan)
Ahmad Addosooki (Egypt)
Margaret Fok (Hong Kong)
Qing-Tang Zhu (China)
Alexandru Georgescu (Romania)
Frederic Schuind (Belgium)
Jörg Bahm (Germany/Belgium)

William Mackenzie (United States)
Gamal Hosny (Egypt)
Reggie Hamdy (Canada)

Symposium 3: Evidence Based Practice for Paediatric Trauma & Infections

Friday, 1 December – 10:30-12:00

Moderator

Gamal Hosny (Egypt)

Speakers

Krish Vemulapalli (India)
George Thompson (United States)
Gamal Hosny (Egypt)
Matthew Dobbs (United States)
Reggie Hamdy (Canada)

PAEDIATRICS

Section Chairman: Patricia Fucs

Symposium 1: Update in Management of Clubfoot

Thursday, 30 November – 10:30-12:00

Moderator

Patricia Fucs (Brazil)

Speakers

Kuldeep Stohr (United Kingdom)
Krish Vemulapalli (India)
Matthew Dobbs (United States)
Li Zhao (China)
Patricia Fucs (Brazil)

Symposium 2: Leg Length Discrepancy

Thursday, 30 November – 14:00-15:30

Moderator

William Mackenzie (United States)

Speakers

Ashok Johari (India)

PAIN MANAGEMENT

Section Chairman: Ajeya Adhikari

Symposium: Advances in Pain Management

Thursday, 30 November – 10:30-12:00

Moderators

Sonia Mongia (United Kingdom) & Richard Langford (United Kingdom)

Speakers

Richard Langford (United Kingdom)
Bernadette Ratnayake (United Kingdom)
Milton Raff (South Africa)
Ajeya Adhikari (United Kingdom)

RESEARCH

Section Chairman: Hamish Simpson

Symposium 1: Fracture Healing

Thursday, 30 November – 10:30-12:00

Moderators

Hamish Simpson (United Kingdom) & Frederic Schuind (Belgium)

Speakers

Frederic Schuind (Belgium)
Philippe Hernigou (France)
Simon Graham (South Africa)
Nando Ferreira (South Africa)
Hamish Simpson (United Kingdom)

Symposium 2: Tendon & Ligament Healing

Thursday, 30 November – 10:30-12:00

Moderators

Hamish Simpson (United Kingdom) & Eiji Itoi (Japan)

Speakers

Stephen Abelow (United States)
Eiji Itoi (Japan)

Symposium 3: Research Methodology

Thursday, 30 November – 14:00-15:30

Moderators

Hamish Simpson (United Kingdom) & Eiji Itoi (Japan)

Speakers

Sakae Tanaka (Japan)
Hamish Simpson (United Kingdom)
Matthew Dobbs (United States)
Vikas Khanduja (United Kingdom)

SHOULDER & ELBOW

Section Chairman: Jacinto Monteiro

Symposium 1: Management of Stiff Elbow

Friday, 1 December – 10:30-12:00

Moderators

Pierre Mansat (France) & Przemyslaw Lubiowski (Poland)

Speakers

Marius Scarlet (France)
Przemyslaw Lubiowski (Poland)
Pierre Mansat (France)
Basil Vrettos (South Africa)
Stephen Roche (South Africa)
Graham Tytherleigh-Strong (United Kingdom)

Symposium 2: Update on Management of Rotator Cuff Tears

Friday, 1 December – 14:00-15:30

Moderators

Jacinto Monteiro (Portugal) & Nuri Aydin (Turkey)

Speakers

Johan Prins (South Africa)
Mohammed Al Ateeq (Qatar)
Rosmaninho Seabra (Portugal)
Srinath Kamineni (United States)
Nuno Sevivas (Portugal)
Lee Van Rensburg (United Kingdom)
Jo De Beer (South Africa)

SOFcot – FRENCH SOCIETY OF ORTHOPAEDIC & TRAUMA SURGERY

Symposium: The Post-traumatic Osteoarthritic Knee

Friday, 1 December – 14:00-15:30

Moderators

Jean-Noel Argenson (France) & Michel Colmar (France)

Speakers

Michel Colmar (France)
Sophie Putman (France)
Pascal Vie (France)
Jean-Noel Argenson (France)

SPINE

Section Chairman: Evalina Burger
