ELBOW ARTHROPLASTY: PURSUING PERFECTION

The 'Madrid International Advanced Course on Elbow Surgery, IACES 2017' is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

The 'Madrid International Advanced Course on Elbow Surgery, IACES 2017' is designated for a maximum of 15 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

WELCOME ADDRESS

Chairman
Samuel Antuña (Spain)

Chairman
Raul Barco (Spain)

Chairman
Joaquín Sánchez Sotelo (USA)

As part of our continuing efforts to spread the knowledge on elbow surgery, we will be organizing the third edition of the Madrid International Advanced Course on Elbow Surgery, IACES 2017.

The first and second editions were very successful, with more than 230 delegates from 35 countries and a fantastic feedback.

The Madrid IACES 2017 will take place from May 25th-27th 2017 at the same venue, Hotel Melia Castilla, in Madrid. We have structured a great

comprehensive program, full of fresh knowledge covering state of the art surgical techniques. We have already confirmed an outstanding faculty panel with more than 20 speakers from Europe, USA and Canada. All of them are internationally recognized experts and opinion leaders on elbow surgery. We therefore expect, once more, delegates from all over the world to attend IACES 2017. We truly believe IACES has been consolidated as an enjoyable meeting that helps us make elbow surgery more appealing for orthopaedic surgeons worldwide.

Whether you have already participated in this event or not, we hope you can join us during Madrid-IACES 2017.
Best Regards,

Welcome to Madrid!!
